About Us

Finley Pletcher is the 7 year old daughter of Jennifer and Mathew Pletcher, and granddaughter of Ted and Phyllis Kovall and Sally and Ben Pletcher. Finley has been diagnosed with a rare eye condition called Lebers Congenital Amaurosis RDH12. This condition will cause her to go completely blind by the time she is a teenager. Currently there is no cure. Her family raises money for research that is being conducted to find a cure and keep her from going blind. All proceeds from this event will be for research to find a cure for Finley's RDH12. Please join us to help us reach our annual goal of \$400,000 so that our quest for a cure can continue.
